ABOUT US

KLD HENWAD LIMITED is a Maharashtra-based engineering company specializing in the manufacturing of precision machine components and custom metal parts. Located in the industrial hub of Indapur Taluka, we've built our reputation by consistently delivering performance-oriented parts such as shafts, flanges, gear wheels, fasteners, and pinions. Our dedicated team ensures every product is produced with accuracy, durability, and quality in mind. Our facility operates with a clear focus on customer requirements. We take pride in offering custom manufacturing services based on customer-provided drawings, making us a go-to choice for businesses requiring tailored mechanical components.
